The impression of many people

Alchemy'a Higheat Use.
There is only one way to Heaven and to victory, and that is hy the why of the Cross (says the "Bandsman, Local Officer, and Songster"). To transform weakness into strength, cowardice into courage, and discord into harmony; is per-haps the highest use to which alchemy can be put. This, as The Army's Founder has rightly said, is Divine Alchemy, and in this glorious husiness we are co-workers with God who is the Divine Alchewist.

The highest happiness of which human heart is canable is the knewledge that its ways please God ing reported by the British "War what is necessary is that God should work with that desire. God wants to. Are you deliberately re sisting or are you co-operating God won't make people holy in spite of

Selected by Mrs. Blanche Johnston. Temperance to achine in schools is eridently bearing good fruit. It was a bitter trial, but our comrade was not now left alone in thetromen whose hearts were dreply touched by his sorrow, and he speaks with the immost appreciation of the great kindness shown him by Major and Mrs. Hay at that time.

Sorgeant Bloomfield is employed with Ensign Harbour at the Industrial Department in connection with the Mricopole. He has been there the Myicopole. He has been there long enough to love the work. TOUCHING PENITENT-FORM SCENE

Mother Embraces Seeking Son. Who Returned to the Hall

We have had souls at the Mercy Srai in nearly every meeting since the arrival of Cantain and Mrs. Beekett. We commenced Friday and in the first of these, eight sinners sought pardon.

Similar, November 16th, was a record day. Many of the converts were forty-two in the march on Sunday night. The Hall was packed, and after a great Salvation meeting came a powerful prayer meeting. The first at the Cross was a woman, the second, a young man for whom the Captain had prayed all day, then followed a man and wife, also a mother and daughter, muil fourteen were kneeling at the Cross. It was inspiring to see the converts of one companions to Jesus.

In the wind-up, we had a march, In the wintl-mp, we had a march, a wave ottering, and about hity short testimonies. As we were leaving the Hall, a nual came rushing back, and knelt at the Penitent-form. God saved him, and his aged mother (a Sohiler) who had knelt by his side, emhraced him as site wept and reiniced to hear him testify. This rejoiced to hear him testify. This made fifteen for the night, and thirty-seven serientermore idays, adence that is so our Leader a. In Army,

One of the most enjoyable fea-Sures of last year's winter campaign in the city of Toronto was the series of united Songster and mited Band festivals given at various Corps, and it was with no small degree of pleasure that Salvationists heard that another series was to be commenced this season. The first gath-ering of this kind-a united Songstor fustions or held at Licens St ster festival—as keld at lasgar St. on Thursday, November 20th, under the presidency of the Divisional Commander, Lieut.-Colonel Chaudler. for the success of the series.

Five visiting Brigades were preBetti—Temple, Riverdale, West Toronto, Toronto I., and Wychwood. These occupied the platform, while the Lisgar Street Brigade sat in the boily of the Hall. Baudwaster (and Songster Leader) Hart led the Brigades in the nuited pieces, and of these "Stand up and bless the Lord" was the best. Lender Goodall was unable to be present, but his substi-Choir and the Brigade cach sang, under the leadership of Brother Ronthron and Wychwood: saug Honthron, and Wyenwood sang twice, giving a very fair rendering of "The Soldier's Song." The Temple Brigade, under Leader Turpitt, did excellently. A good start, well-sustained work all the way through. snatained work all the way through, and eareful shading were given in response to Brother Turpitt's highly-intelligent conductorship. Riverdale (Leader Farmer) did not sing as a body on account of absent inule yoiecs, but two of the memory (Sister Morden and Stolliker) sang ery sweetly, and Songster I hillips gave a pianoforte solo.

The whole was very interesting enjoyable, but the Brigades have a long way yet to travel before they attain perfection. Particularly noticentile on this occasion was the tack of precision at the start—the Temple were better in this respect, also in the matter of tuning, which in some Brigades was poor—and the indistinctness in pronunciation. "As a Songster Leader of thir-

"You ask, how do I arrange to "You ask, how do I arrange to hring my Songsters out? This has wonderfully helped some to become really good workers.

A Helpful Method.

"Add to this the fact that some-times, when I have a Sunday free from special meetings, I arrange for all the members to assemble after the morning meeting at one or other of their Corps, and spend the afterof their Corps, and spenished a accom-noon in prayer and praise at a room I seeure, after which we have rea together, and again call upon God to together, and again call np-n God to make us a soul-saving Brigade. For example, in sinner. For example, in Will the joy or pain? a verse and chorus is sung, and when the soloist commences the second verse, 'What will neterity bring to you? That was the unery, if I know the minds and heart of the Officers and Soldiers who gathered in Council; of that sidendial representation of Winripeg's business men as they sat around the tieneral on the Sunday afternoon and of the great crowd that filled the building. A second open-air meeting drew another large crowd, and Brewer Brown, also ser-eral other comrades from city Corps, thrilled the people as they tail of lives changed from the service of Satan to the service of God.

Returning to the Temple, the Rend brought along a young man who had been deeply convicted by the Envoy's address at the first open-air meeting. ## OUR FIRST AND LAST CONCERN.

If you cannot go back in search of the what might-have been of your own life there is still the cousoling thought that the living present, rich with opportunity fresh from the hands of God, is yours: and next to that the realization that the follies and mistakes and sins of your own past may, by God's good grace and your own alert care and nurture, be prevented in the children-vour own children, and the neglected little ones of the streets.

The nations are awaking to the importance of the child. They are now doing more than ever for his education, as well as for his physieal and moral training, and they must go on. The churches, too. haviog discovered that the child is more often outside their Sunday Schools than he should be, are making des-perate efforts to bring him in. Even The Army has not done all that it 'ould have done in the matter But it is thoroughly alive to the urgency of its responsibility, thanks to a great degree to the living interest and uncessing efforts of our present General; and neglect of the Chil-dren's Work, no matter how successful other emisades may be, is now recognized to be a most serious

thing.
Some of the last pathetic entries in the diary of Captain Scott, made with feelbe fingers as he sat ealmly waiting for death in South Polar regions, were words of affectionate counsel to his wife regarding the training of their little son. "Above and the words of affectionate counsel to his wife regarding the training of their little son." "Above and the words of the mast gent, and so the state of the south of lence Make him a strenuous alau I had to force myself into being strenuous, as you know."

That stirring message should speak to us during the present 'Young People's Campaign. Our first and last concern should be for the children, and there is need that, in looking after their interests and winning their love and service for our Saviour, and theirs, we should "force ourselves into being

During the singing of the verse a short, burly figure, clail in more of tattored and tree stoomed rags all tattered and torn, stepped evan the dais, and as though re-gr fully saying, "This is what sin does for a fellow!" stund before the audience. It was our comrade Enemy Brown Brown.

Inspiring Confidence.

Vinniper, the warm-hearted, ever ready to give generous homage to noble endeavour, has paid remarkable tribute to General Brainwell Booth, the new head of The Salvation Army. His reception on his first visit to the Canadian support land must have been very gratifying, both to himself and to his followers.

both to himself and to his tollowers,
More than ordinary interest was

There was a desire on the part of the public to size him up, to measure in their own minds his capabilities for leatership, minds his capabilities for leadership, and in this regard it was safely be said that he inspired all who heard and saw hint with confidence. In His Father's Footsteps.
I am not greatly concerned as to whether General Bramwell Booth is

likely to prove as great a man as that he sees no contraction of oppor-tunity, no cridence of a lessening tunity, no cridence of a lessening need for The Salvation Army, and that he is following closely in the footsteps of his father, to whose inspiration and organizing genius the world owes the birth of The Salvation Army. Given a man of con-secration, of ability, of energy and secration, of ability, of energy and cuthusiasm, alive to the opportuni-ties that lie before him, and the pos-sibilities that lie within the organi-zation which he leads, and what need we care whether he is as great a man as his father?
